

# SMARTOPTZ

**Remote Vital Sign Monitoring HealthKit**

# SmartOptz HealthKit For Remote Patient Monitoring

Monitor Health Vitals of All Your Patients At Home With EWS & Individualized Vital Sign Ranges  
(SpO2, NIBP, Pulse, Temp, Blood Glucose, Hematocrit, Hemoglobin, Total Cholesterol, Ketone, Urid Acid, Weight)

## Individualized Vital Sign Reference Ranges

### 1 Customize Your Health Kit (NIBP, SpO2, Temp, Blood Glucose)

Select your preferred medical devices best fit your patient's profile or care plan. You can start with one device and add on as the need arises. The Health Kit comes standard with a protective hard case, device gateway, 3G USB dongle and sim card.

### 2 Gateway Based (No Worry About Smartphone Pairing)

The gateway based Health Kit is designed to make it very simple to use. The care provider assigns the Health Kit to the patient just via QR codes scanning. Patient only need to power up the device gateway at home and start taking vitals without worrying about connecting to home WIFI or bluetooth pairing with smartphone.

### 3 Cloud Dashboard (Individualized Reference Ranges)

Monitor all your patients at home on a single dashboard anywhere, anytime. Subject to patient's profile, you may customize the vital sign reference ranges accordingly for each individual. This is to avoid alert fatigue and disturbance to the patients at home.

Choose Your Preferred Devices

## BLUETOOTH LE 4.0 MEDICAL DEVICES & RPM Telehealth Gateway

# SMART OPTZ

### FORA 6 Connect Multi-Parameter Monitor

- 1 x Fora Gold Strip for blood glucose, 25 pcs/vial
